Extend your grasp with our Reachers

PARSONS ECONO REACHER

Our base model reacher. Solid lightweight aluminum construction and a string mechanism makes this model affordable and easy to use. Perfect for everyday tasks, the Parsons Econo Reacher helps you grab items from hard-to-reach places without straining. Whether you need to pick up dropped objects, reach high shelves, or avoid bending down, this budget-friendly tool gets the job done.

PS-16H060 Econo 26", 4.9oz
PS-16H062 Econo 32", 6.0oz

PARSONS HORSESHOE REACHER

Our most versatile reacher, perfect for everyday tasks. The Parsons Horseshoe Reacher features a sturdy yet lightweight design, with an optional folding mechanism for easy storage and travel. Whether at home or on the go, this model provides the perfect balance of portability and strength. Plus, an added magnet helps you easily pick up small metal objects for extra convenience.

PS-16H080 Horseshoe 26", 5.7oz
PS-16H081 Horseshoe 32", 7.0oz
PS-16H082 Horseshoe 40", 8.8oz
PS-16H085 Horseshoe Folding 26", 6.3oz
PS-16H086 Horseshoe Folding 32", 7.8oz

PARSONS T-REX REACHER

Designed for those with reduced mobility, the Parsons T-Rex Reacher requires less grip strength to operate than other models. It comes with a dressing hook and a magnet for added functionality and versatility. Its ergonomic design features a shorter squeeze mechanism, making it perfect for individuals with smaller hands. Lightweight yet sturdy, this reacher offers ease of use and improved independence for everyday tasks. Available in single and dual grip based on preference.

Locking button to hold items in place

Wrist Support

EXPANDABLE DOOR HINGE

Add two inches to most doorways allowing access for wheelchairs and walkers. Installs easily. Uses the same screws and holes already in your door frame.

16H157A PS-16H157A

FINGER GRIP KEY TURNER

This kit provides large plastic finger loops and the necessary screws to assemble handles on two keys. For those with limited manual dexterity or finger strength. 2 pair per pkg. NOW EXPANDABLE TO 3/8″ TO ACCOMMODATE MOST AUTO KEYS!

16H148 PS-16H148

LIGHT SWITCH EXTENDER

An extension handle for your light switch. A great device for children, wheelchair users, persons with tremors or a weak grasp. 14″ (36cm) long, this handle lowers a regular height light switch to a more convenient height. A rubber cap fits over the light switch knob.

16H165 PS-16H165

T-PULL DOOR CLOSER

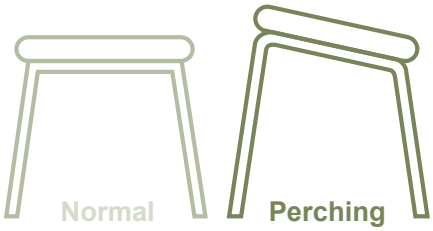
The T-Pull Door Closer is a great device for people in wheelchairs as well as anyone using crutches. With the Door Closer, closing doors becomes a simple task. Made of sturdy black ABS plastic. Measures 7.75 inches (19.7 cm) in overall length. Tucks away when not in use.

16H159 PS-16H159

Perching Stools

Why use a Perching Stool?

Perching stools have seats that are sloped forward reducing the effort required to sit down and stand up.



PS-20H025

PS-20H026

PERCHING STOOL, BASIC

This perching stool features a powder coated steel frame, padded seat, and slip resistant rubber feet. Height is adjustable from 21”-27”. The stool’s tilt eases hip strain when standing, while the angled seat supports the user during tasks like food prep. Base measures 16” wide x 22” (40.6 x 56 cm) deep, seat measures 14” wide x 11” (35.5 x 28 cm) deep. Requires assembly. **Weight capacity: 250 lbs. (114kg)**.

20H025 PS-20H025

PERCHING STOOL, DELUXE

Similar to 20H025 with the added features of a padded backrest, size 6″ x 12″ (15 x 30cm) and chrome plated arm rests. 20″ (51cm) between arm rests. Assembly required.

20H026 PS-20H026

One Step Stool

ONE STEP STOOL WITH HANDRAIL

Features a chrome-plated base measuring 12″ wide x 16″ long x 9″ high (30 x 40 x23cm); the stool is covered in a non-slip matting for confident use. The chrome plated steel handrail is 33″ (82cm) tall to assist with balance. Weighs 6 lbs. (2.7kg). Requires assembly. Weight capacity: 350 lbs. (158kg).

16K055A PS-16K055A

Turn, Write, Talk

PAGE TURNER

Our hand clip with a long curved light aluminum bar tipped with a rubber end to easily flip pages, even heavy paper.

16H146 PS-16H146

BEAN BAG LAP DESK

12″ x 16″ (30 x 41cm) light grey plastic top with a cloth bag filled with styrofoam pellets. Useful for many applications such as writing, eating, hobby jobs, food preparation while seated, etc. The bean bag provides a form fitting and comfortable support for the surface on your lap. Removable bean bag for easier cleaning.

16H155 PS-16H155

ARTHRITIC'S PHONE HOLDER

An epoxy coated metal hand clip which fastens to a phone or drinking glass with a hook & loop strap. It can be re-bent to suit hand size. Also very useful for putting a handle on a salt shaker, a glass, bottles, etc. The hook & loop is left extra long for adaptations.

16H140 PS-16H140

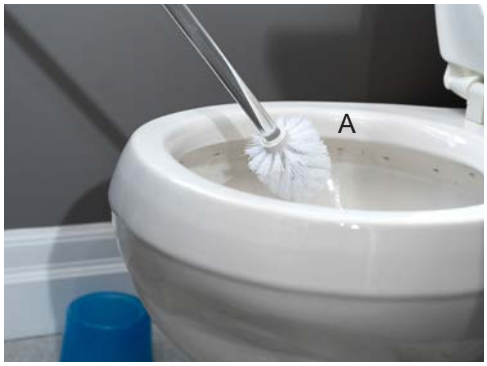
Phone not included.

Cleaning Aids

A LONG HANDLE TOILET BRUSH WITH CUP

Reduce bending and kneeling when cleaning the toilet. Long clear acrylic handle adds greater stiffness and is easier to clean. The 3″ (7cm) diameter bristle head easily fits into every curve of the toilet bowl. Overall length 26″ (66cm).

16B117 PS-16B117



B HANDY SCRUB

Longer than most handles on the market. Reduces bending and straining while cleaning bathtubs, whirlpools, tiles, etc. Nylon net head works with cleanser to clean around contours and into corners. Net head will not scratch acrylic, fiberglass or plastic surfaces. Easy drying, no washing required, just rinse and shake dry. 48″ (122cm) shaft allows easy reaching to high or low areas. Lightweight, only 300 grams.

16B119 PS-16B119

TELESCOPIC HANDY SCRUB

Similar to above but with a telescopic handle adjusting from 34″ to 60″ (86cm to 152cm).

16B118 PS-16B118

REPLACEMENT HEAD

16B118HEAD PS-16B118HEAD

C EXTRA LONG HANDLE SPONGE

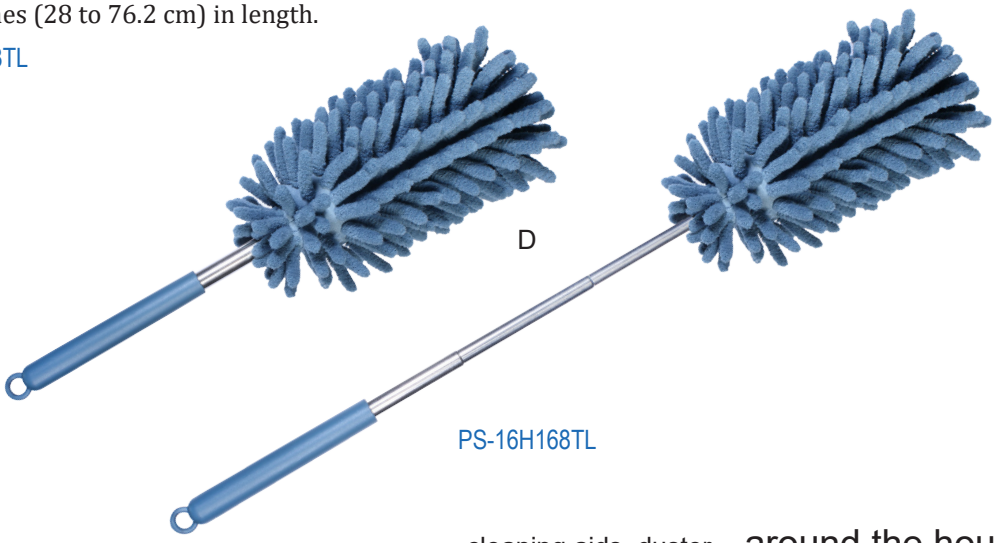
Take the stretch and bend out of household cleaning with this extra long handled sponge. The sponge is mounted on a stiff yet lightweight white aluminum shaft. 30″ (76cm) long.

16B125 PS-16B125

D EXTENDABLE MICROFIBER DUSTER

This vibrant high-reach cleaning duster is specifically crafted for efficient, safe, and affordable cleaning. The durable pole is lightweight and easy to maneuver, allowing you to reach corners and ceilings without the need for a step stool, reducing the risk of falls. The telescoping handle extends from 11 to 30 inches (28 to 76.2 cm) in length.

PS-16H168TL



Smoking Aids

BEDSIDE ASHTRAY, WITH REMOTE TUBE

This bedside ashtray is similar to the remote ashtray except with a weighted anti-slip base for use on a bedside table or beside your favourite TV chair. Tube length: 36″ (91cm).

16C036-1 PS-16C0361

REPLACEMENT TUBES

Inside dia. of tubes is 3/16″ (0.5cm), outside dia. is 5/16″ (0.8cm). Fits items 16C036 and 16C036-1.

16C037 PS-16C037

CLIP-ON REMOTE SMOKER ASHTRAY

The ultimate in wheelchair smoking safety. The cigarette is always held over the ashtray and the smoker uses the tube with mouth piece to smoke. Even if the smoker falls asleep the cigarette is always in the ashtray. Tube length 36″ (91cm).

16C036 PS-16C036

SMOKER'S BIB, FIRE-RETARDANT

This smoker's bib is made of a soft cloth that is fire-retardent. The cloth is inherently flame resistant ensuring a high level of protection against fire risks. It does not melt or form molten droplets. It is colour fast and machine washable. Size 24″ x 36″ (61 x 91cm). Nomex material blended with 25% viscose; especially made for its high fire resistance. Finished with white trim. Attaches with tie strings.

16L201A PS-16L201A

Leisure

LOW VISION PLAYING CARDS

These poker-sized playing cards are specially designed for individuals with vision impairments, featuring large 1-5/8" numbers and letters. Each suit is color-coded – green, black, red, and blue – for easy and immediate recognition. The smooth, plastic-coated finish ensures effortless handling and long-lasting durability.

16L403A PS-16L403A

CARD HOLDER, WOODEN

This varnished hardwood playing card holder provides a sturdy and stylish way to organize and hold cards during games, keeping them accessible and neat. Measures 10" (25cm) long, with No-Slip rubber feet. Does not include cards.

16L014 PS-16L014

Magnifiers

FULL PAGE MAGNIFIER

A large pliable sheet magnifier. Enlarge a whole page of print at once! Ideal for anyone with minor vision problems. Lens size is 6½″ x 9″ (16.5 x 23cm). 2x magnification.

16H030 PS-16H030

WALLET SIZE MAGNIFIER

Made of a flexible plastic, this magnifier is the size of a credit card and fits in your wallet so you will always have a magnifier when you need one. 2x magnification.

16H028 PS-16H028

ROUND READING GLASS

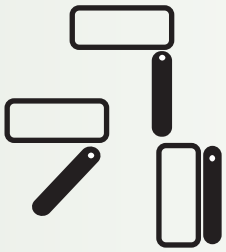
3″ (7.6cm) round reading glass with plastic handle. 2x magnification, 4x bifocal area.

16H031 PS-16H031

RECTANGULAR READING GLASS

A 2″x 4″ (5 x 10cm) 2x magnifier and a 4x bifocal area. This magnifier has a folding handle, and comes with a travel case.

16H032 PS-16H032



SOLARSHIELD SUNGLASSES, WITH CASE

For both men and women, these sunglasses fit over regular eyeglasses and block 100% of UVA and UVB sun rays. They provide 40% more protection than regular sunglasses with extra wide side bars and top bar. Designed for the protection of seniors who often need additional sun protection because of: sensitivity to sunlight, dry eyes, allergies that create eye irritation and post-cataract surgery. Case included.

16M050 PS-16M050

Medication Aids

EYE DROP GUIDE

Holds the eye open and directs the drops, allowing for accurate eye drop installation! Clips into place over most eye drop bottles and positions the bottle at the correct angle over the eye. Special cup prevents blinking by keeping the lower eyelid open. Unique pinhole directs eyesight upward and away from the descending drops.

16M002A PS-16M002A

7 DAY AM/PM PILL REMINDER

This push-button pillbox offers easy access to your medications twice a day with transparent lids for quick identification.

16M012 PS-16M012

PILL BOX, JUMBO

This 7 day pill box is perfect for those who need large capacity. Each compartment holds 65 ASA size pills. Braille on lids. L x W x H:
9″ x 1¾″ x 1″ (23 x 4.4 x 2.5cm).

16M008 PS-16M008

DELUXE PILL CUT AND CRUSH

This handy device is four tools in one: a serrated crushing surface to effortlessly crush pills, a stainless steel blade to provide a clean pill cut, four compartments for pill storage and a small drinking cup. Overall height is 3¼″ (8cm).

16M016A PS-16M016A

PARSONS EPINEPHRINE PEN POUCH & BELT

These pouches are water resistant and can safely hold your EpiPens in order to protect them against water, dust, dirt and sand. Features a zipper closure and an adjustable strap which can be worn around the waist or across the shoulders. Made of polyester, cotton & vinyl blend for durability. The 1″ (2.5cm) webbing strap has a plastic side-release buckle and extends to a total length of 47 inches (119 cm). Black only.

A	16M061-1	PS-16M0611	Single: 8" x 2½" (20 x 6cm) Holds one pen
B	16M061	PS-16M061	Double: 8" x 3½" (20 x 9cm) Holds two pens

Personal Safety Alarms & Fall Management

SEAT BELT ALARM

Easy to use belt alerts staff the moment the buckle is undone. Convenient on/off switch, low battery light, and flashing light to help locate the patient. The belt has grommets to secure bolts for attaching to the chair. Mounting bracket included for the alarm. Uses one 9V battery (included). Six month warranty excluding battery.

16M108A PS-16M108A

EARLY WARNING SEAT BELT ALARM

This belt system provides staff with an extra margin of safety for those more active wheelchair patients. The alarm sounds when the hook and loop is released to the blue area on the belt. At that point there is still approximately 12″ (30cm) of hook and loop remaining for safety and to allow staff additional time to attend to the patient.

16M109A PS-16M109A

PADS FOR SEAT BELTS

Replacement pad set for Seat Belt Systems, PS-16M108A and PS-16M109A, shown above.

PS-16M110A

Personal Safety Alarms & Fall Management

MAGNETIC PULL-CORD ALARM

The magnetic pull switch of this versatile patient monitor releases from any direction. The unit includes a mounting holster that may be secured to a headboard or use its hook & loop fastener for wheelchair mounting. Cord adjusts from 28″ to 58″ (71 to 147cm). Two alarm levels (85dB and 95dB), on/off switch, battery check button, 2 AAA batteries included.

16M101A PS-16M101A

MAGNETIC PULL-CORD SWITCH

Replacement magnetic pull cord for 16M101A Magnetic Alarm.

16M101-1 PS-16M1011

CORDLESS PIR ALARM

An alternative to sensor pads, this PIR (Passive Infrared) alarm system provides simple, safe and dependable motion detection to help manage patient care and fall prevention. It has a thin, curtain-like motion detector beam, which only monitors a narrow area beside the bed. When the beam is interrupted, the sensor detects motion and triggers the alarm. Cordless system eliminates potential tripping hazard or accidental wire pulls. Maximum detection distance of 24' (7.3m). Alarm loudness of 80dB. 9 volt battery included.

16M102A PS-16M102A

Swivels for precise alignment

TR2 TAMPER RESISTANT (SENSOR PAD ALARMS)

Effectively monitors unwanted patient exits from bed. As soon as any weight is applied to the sensor pad, the alarm unit "beeps" to indicate activation. When the alarm is triggered, the unit sounds and a flashing red light helps you locate the patient. The large sensor pads stay securely under the patient, while allowing them to shift positions and not worry about setting off the alarm. Pads can be placed under the patient's shoulder area for more sensitivity to and early warning of patient wandering. No maximum weight limit. The sensor pads are designed for the demands of long term use.

Mobility Solutions

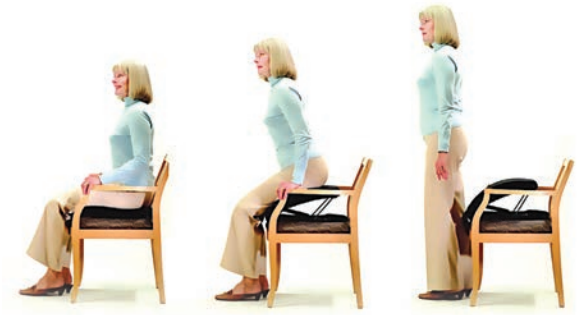
UPLIFT PREMIUM POWER LIFTING SEAT

Poly-foam • Poly-cover

Provides 100% electric lift for those who struggle to get up from a seated position. Works on most armchairs or sofas and with patented LeveLift Technology, users enjoy a safe, gentle lift with no forward dumping. The three layer cushion with memory foam core maximizes comfort while helping prevent pressure sores. Truly portable with two ergonomic carry handles and lightweight construction.
Black waterproof cover.

16H014A PS-16H014A

UpLift Electric Power Lifting Seat will lift 100% of a user's weight up to 300 LBS. (136kg)



UPLIFT SEAT ASSIST

Self-powered • Memory-foam • Waterproof cover

The hydro-pneumatic lifting mechanism of the Seat Assist engages as soon as the sit-to-stand motion is initiated by the user. Non-slip material on the base prevents shifting on seating surfaces. Built-in carry handle. Because it uses no electricity, the Seat Assist is perfect for restaurants, theatres, church or even a park bench. The flexible seat curves to a flat surface that lifts you up on a level plane, without dumping you forward. Washable, waterproof BLACK cover with comfortable memory foam cushion.

- No switches
- No special installation
- No electric wires
- No latches

**UpLift Seat Assist will lift up to 70% of a user's weight.
Seat Assists are not intended for use with wheelchairs.

Safety & Therapy Aids

PARSONS SOFT LANDING MAT

Greatly reduce the danger of injury if a patient falls out of bed. This 2″ (5cm) thick pad will soften the fall. The mat folds in the middle for easy storage and has carry handles. The front edge is tapered to allow a wheelchair to ride onto the mat and to reduce the danger of people tripping on it. Durable vinyl cover for easy cleaning. Anti-slip base. Measures 30″ x 72″ x 2″ (76 x 183 x 5cm). Weighs 7.8 lbs. (3.5kg).

15E083A PS-15E083A

Safety & Therapy Aids

FURNITURE RISERS

Sturdy blocks made of multi laminated plywood. Ideal to safely elevate a bed or chair height for anyone who has trouble getting up and down from a low seated position. Size: 5″ (13cm) square outside, 4″ (10cm) inside. Amount of elevation is adjustable within ranges indicated above. Weight capacity: 500 lbs. (227kg) per block. Sold in packages of 2.

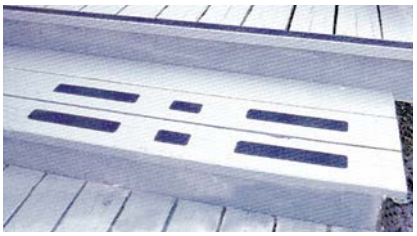
SAFETY TREAD

Reduce the risk of slips, trips and falls with the use of safety tape. Provides safer footing, an excellent solution for slippery steps, stairs, poolside or in the bathroom. Self adhesive. Size 2″ x 60″ (5 x 152cm).
1 strip/pkg.

16H158 PS-16H158



OUTDOOR GRAB BAR - 18″ (46cm)

Safety grab bar ideal for all outdoor areas – provides additional safety entering and leaving the house especially for those who may be unsteady and would benefit from a little extra help. New attractive soft grip bar is comfortable and easy to hold. Ribbed surface provides additional support. Concealed screws remove any sharp edges. Can be positioned horizontally or vertically. Maximum user weight 350 lbs. (160kg). Overall length 19½″ (50cm).

16L004A PS-16L004A

PARSONS BEAN BAG DINNER TRAY

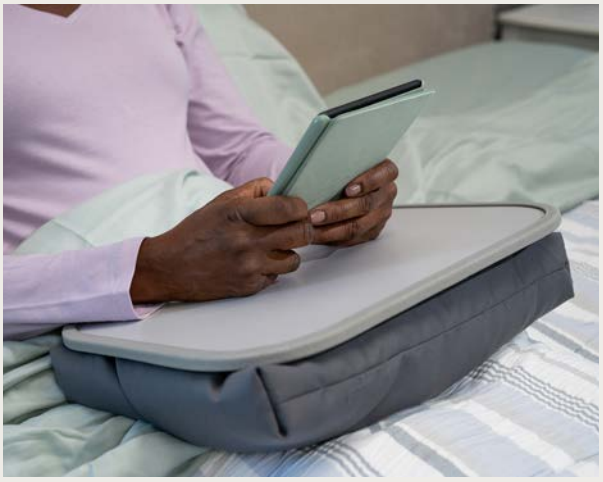
This tray combines all the comfort of our bean bag lap tray and lap desk. Now with a low vision red plastic tray attached. In case of spills, the tray simply unhooks (hook & loop) from the bean bag for easy clean up. Red tray measures: 12″ x 16″ (30 x 41cm).

16H179 PS-16H179

PARSONS BEAN BAG LAP TRAY

This lap tray has a ¼″ (6mm) matching moulding surrounding the easy to clean plastic surface. This moulding stops items such as cups, plates, etc. from accidentally slipping off the surface. The removable bean bag provides a form fitting and comfortable support on your lap. 12″ x 16″ (30 x 41cm). Weighs 1.65 lbs. (0.75kg).

16H170 PS-16H170



Grip Solutions

A universal design makes “Good Grips” easy for everyone to use. Good Grips are everything that an everyday tool should be. They’re comfortable, they’re usable and functional. Soft rubber grips, that won’t slip, even when wet. Made of stainless steel and Santoprene®, and they are dishwasher safe. Within this line of products are some very handy items for everyday kitchen use and independence. The Lock-On Can opener is great for those with weak grip strength - it doesn’t require constant grip of the handle, like standard can openers, in order to open the can. The Jar Opener is a useful tool for those hard to open jar lids.

Cutting Boards

PARSONS CUTTING BOARD

This easily cleaned white food grade polypropylene cutting board has stainless steel spikes to hold food in place for peeling and slicing. The ½″ (1.2cm) high corner guards keep bread from sliding when spreading butter or slicing. Mounted on 4 suction cups for anchoring board securely. 12″ x 12″ (30 x 30cm). Dishwasher safe.

16K013 PS-16K013

COMBINATION CUTTING BOARD

A food grade cutting board with a chef knife attached so that it can be utilized in a chopping motion. The knife pivots and is removable for cleaning and sharpening. The board is 18″ x 12″ (46 x 30cm) and is mounted on 4 suction cup feet. Three conveniently located stainless steel spikes for securing potatoes, apples, etc. for peeling. ½″ (1cm) food guard aids with spreads. Dishwasher safe.

16K016 PS-16K016

CUTTING BOARD WITH PIVOT KNIFE

A food grade cutting board with a chef knife attached in such a way that it can be used in a chopping motion through an arc of 90 degrees. The knife has a black plastic handle and can be removed for cleaning and sharpening. The board is mounted on four suction cups. 12″ x 12″ (30 x 30cm). Dishwasher safe.

16K014 PS-16K014

ERGO BREAD KNIFE

Ergo kitchen knives. The soft feel moulded plastic handle gives a firm, comfortable grip in either hand. The stainless steel blade is angled to reduce stress and pain when doing food preparation. Both knives have serrated blades. Bread knife has 8″ (20cm) blade.

16K039A PS-16K039A

ERGO VEGETABLE KNIFE

Vegetable knife has 6″ (15cm) blade.

TABLEWARE

Let Parsons Tableware put dignity and pleasure back into mealtime.

3oz (85g)

PARSONS COMFORT GRIP CUTLERY

Cutlery with a grip designed to give independence at meal time. These utensils allow maximum user control with minimum effort. Useful in both institutions and at home. The comfort grip has a soft vinyl coating with finger indentations for a secure grip. Of special note is the Parsons knife blade which has been designed to be useful, both as a regular dinner knife and as a rocker knife. It has a curved cutting edge making it a suitable knife for the one handed person. Suited for persons with poor grasp with a 7/8″ (22mm) diameter grip. Lightweight, Dishwasher Safe, Latex Free.

RED GRIPS

VISUALLY IMPAIRED • ALZHEIMERS • DEMENTIA

All Parsons Comfort Grip Cutlery is available with red grips. Research studies indicate that the color red not only benefits the visually impaired but also helps individuals with Alzheimer's and dementia. It has been shown to encourage them to eat more and remain engaged with their food for a longer period of time.

PARSONS COMFORT GRIP WEIGHTED CUTLERY

8oz (226g)

Our comfort grip weighted cutlery weighs 8oz (226 grams) which decreases hand tremors, allowing cutlery to reach the users mouth easier. An ideal solution for persons with Parkinson's or other impairments resulting in hand tremors. Latex free. Home dishwasher safe. Also available with red grips for the visually impaired.

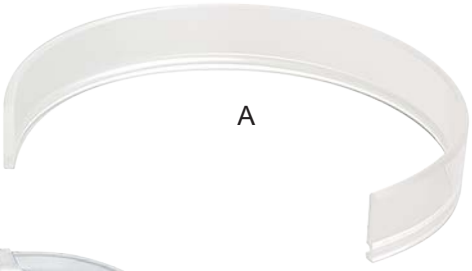
Food Bumpers

Food Bumpers adapt a standard plate into a plate for self-feeding similar to an inner lip or scoop plate. The walls provide an area to push food onto your utensil for scooping and aid in keeping the food on the plate.



A TRANSPARENT PLATE SURROUND

Clear plastic food bumper easily snaps onto most dinner plates to aid with independent eating. It fits securely and is easy to clean. Fits plate size 9-11″ (23-28cm) Dimensions 8½″ dia. x 1½″ high (22cm dia. x 2cm)

16T074 PS-16T074

B PLASTIC FOOD BUMPER, WHITE

Fits 8″-11″ (20-28cm) plates. This sanitary snap-on food bumper is moulded in one piece. Dishwasher safe. Microwavable. Institutional dishwasher safe.

16T070 PS-16T070

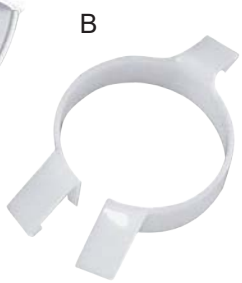


Plate not included

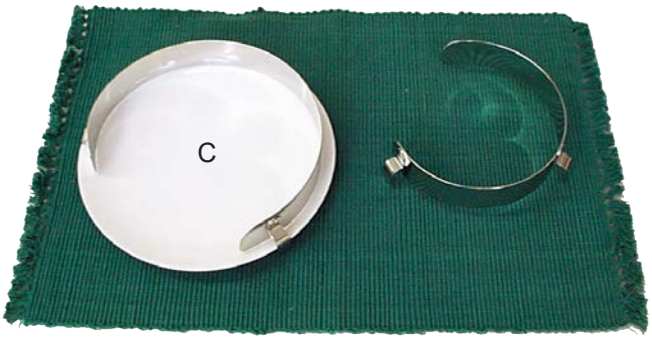
C STAINLESS STEEL FOOD BUMPER

Fits 9″-11″ (23 - 28cm) plates. Solid stainless steel food bumper for durability and sanitation. Three clips hold them on the plate by a spring action.

16T072A PS-16T072A



Plates

SCOOPER PLATE WITH NON SKID BASE

Designed for people with limited muscle control or the use of only one hand. The combination plate/bowl has a contoured lip that can be used to push food onto cutlery more easily. Measures 6″ x 7½″ (15 x 19cm) x 1¾″ (4.4cm) deep on the high side. Not recommended for dishwasher or microwave. Sandstone colour.

16T175A PS-16T175A

PARSONS SCOOP PLATE

This 9″ (23cm) scoop plate promotes independence at meal time. It allows the user to push food against the plate's high back wall and onto their cutlery. The entry side is low for easy use. The wide outer rim is useful to grasp the plate while scooping food onto cutlery. The plate has a skid resistant base which is helpful for the individual with one hand or for anyone with poor coordination. Breakproof plastic. Microwavable & top rack dishwasher safe.

SECTION PLATE WITH LID

This sectioned plate has three compartments to keep food separated. Each compartment is about 1.5″ (3.8cm) deep. The two smaller sections hold up to 6.75 oz (200ml), while the larger one has a 12.6 oz (375ml) capacity. The high walls of each compartment can be used to help push food onto forks and spoons. This stackable dish comes with a clear plastic cover for easier transporting and storing of food. Diameter measures 8.25″ (20cm). Plate and lid are dishwasher, microwave and freezer safe.

16T167 PS-16T167

DIVIDED DINNER PLATE, 9"

A great dinner plate for individual use. Heavy duty, chip, crack and scratch resistant Alacite plastic. Measures 9 in (23cm) in diameter with 1 in (2.5cm) high sides and a 0.75 in (1.9cm) wide outer rim. This plate makes it easy for persons with poor coordination, or with the use of only one hand, to scoop food without making a mess of their dinner. Available in White only. Not microwavable, autoclave or dishwasher safe.

16T166 PS-16T166
16T166-1 PS-16T1661 No-Slip

DIVIDED DINNER PLATE, 10"

This 10-inch (25 cm) divided plate is designed to assist individuals with limited coordination or those using only one hand in easily scooping food from each compartment onto their utensil. It is made from food-grade polypropylene and is BPA free. Dishwasher and microwave safe.

BPA FREE

16T165 PS-16T165

Note: Use of a serrated knife will shorten the life of plastic plates.

Cups

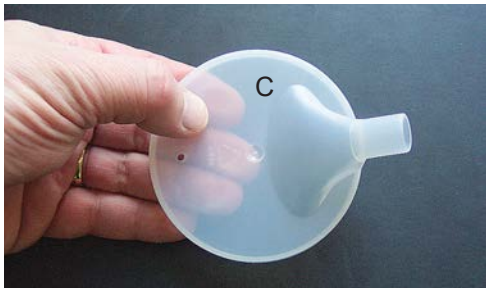
A CONVALESCENT NO SPILL CUP

The convalescent cup has a lid with a mouth piece, which has a hole large enough to accommodate a straw. Opposite the mouth piece there is a small air inlet hole in the lid, by putting a finger over the air hole you can regulate the flow of the liquid. 8 oz (237ml) capacity. 4″ (10cm) tall. Ideal for drinking while lying in bed. Dishwasher safe.

16T143 PS-16T143

REPLACEMENT LID

16T143-1 PS-16T1431



B ANTI TIP BASE, FOR CONVALESCENT CUP

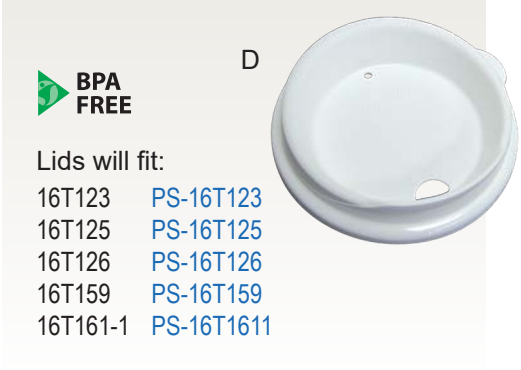
This base is a friction fit on to our convalescent cup. It helps prevent bed ridden patients from spilling the contents of the cup if they bump it with their hand as they reach for it. Has an anti-skid base for further stability.

16T142 PS-16T142

C DRINKING SPOUT LID

The spout can be used for drinking, a straw can be inserted, or the spout can be sucked like a straw and the air hole can be used to regulate the flow. Institutional dishwasher safe.

16T163 PS-16T163



D RECESSED CUP LID

A regular cup rim to drink from with a recessed lid to regulate flow and reduce spills. A very safe lid which allows the normal drinking method favored by most people. Straw will fit in drinking hole.

16T164 PS-16T164

Spillproof Cup

E KENNEDY CUP (SPILLPROOF CUP)

Sturdy screw on lid with internal nozzle eliminates accidental spills. The Kennedy Cup will not spill, so it can be used in a reclining or sitting position. Easy to grip handle is perfect for patients of all ages, left or right handed. Lightweight and durable, can be picked up by even the weakest hands. The Kennedy Cup holds 7oz of hot or cold liquid. Accepts any standard straw. Designed especially for rehabilitation and as an accessory for daily living. Helps restore independence and dignity. Dishwasher safe (maximum 180° F/75° C). Blue colour. Not recommended for the microwave. Straw not included.

REPLACEMENT LID

16T149-1 PS-16T1491

CUP HANDLE (HOOK & LOOP STRAP WITH HANDLE)

An epoxy coated metal hand clip which fastens to a drinking glass or a phone-handset with a hook & loop strap. The hand clip can be re-bent to suit hand size. Also very useful for putting on a salt shaker, a bottle, a phone, etc. The hook & loop strap is left extra long for adaptations.

16H140 PS-16H140

NOSEY CUPS

The rim on our translucent Nosey Cup has been designed so a person can drink without tipping their head back to drain the glass. It can be tipped beyond the point where a normal cup would hit the bridge of your nose. Designed for people with limited neck movement, a bed patient or in a wheelchair with a headrest.

16T144-1	PS-16T1441	Nosey Cup, Green, 4oz (118ml)

BLUE NOSEY CUP, 8oz (237ml)

The elegantly designed Blue Nosey Cup is transparent so the level of the contents is always visible. The bottom of the bowl is rounded to assist draining the contents and to make washing easy. The short stem and tapered cup make the glass easy to grasp, designed for people with a poor grip. A large base helps prevent tipping. Microwave and dishwasher (top rack) safe. NOT autoclavable.

SLEEPANGEL MEMORY FOAM PILLOW

SleepAngel Memory foam pillow gives excellent support for back and side sleepers. The memory foam gently adapts to your shape, to help relieve the aches and pains caused by pressure peaks, while the contouring effect provides proper head and neck support. Foam is very flexible and breathable polyurethane foam, that is highly durable and does not lose its shape and performance over years.
Pillow details: size 47 L x 71 W x 11 H cm.

GS-3020004

PneumaPure®
filter technology

Unique PneumaPure filter is clinically proven to keep viruses and bacteria out, while still allowing for clean air to pass through.

- No laundering required - simply wipe down the exterior of the pillow
- Perfect for allergy and asthma sufferers

ALIGN-RIGHT SLEEPING PILLOW

Fleece Protectors

SHEEPSKIN HEEL / ELBOW PADS

Provides Pressure Relief on your heels and elbows with these cozy sheepskin protectors. Attaches around the heel or elbow with a hook & loop strap. Made from dense shearling sheepskin. Hand-washable at low temperatures. Air dry.

19N100A PS-19N100A

PARSONS PALM PROTECTORS

Designed to protect the skin in the palm of the hand in the presence of a permanent hand contracture. Manufactured of soft fleece covering with foam padding in the palm area. The palm protector slips easily over the thumb and is fastened using a hook & loop closure. Fits both left and right hand. One size fits most. Machine washable. Sold as a pair.

15E004 PS-15E004

Fleece Product Content: 70% acrylic and 30% wool. Wash in cold water, gentle cycle and mild soap (such as Zero, used for wool sweaters). Lay flat to air dry. Do not use dryer.

The entire Ventopedic product line is built around an effective moisture transport technology system aimed at maintaining skin integrity on a variety of body parts. Structured around fabric functionality, Ventopedic products are designed to effectively draw moisture away from the skin while providing soft cushioning support. Machine washable and dryable. Latex free.

VENTOPEDIC HEEL ELEVATION BOOT WITH BUTTERFLY LIFT

Unique butterfly lift design and centre sew line creates a channel for the Achilles to rest comfortably. Two stabilizing straps inside the boot will prevent leg rotation inside the boot. Can be used on left or right foot. One size fits most adults.

19N234A PS-19N234A

VENTOPEDIC HEEL & ANKLE PROTECTOR

Cushioning support and moisture control for the heel and ankle area. Circular openings on each side promotes airflow and makes visualization easier. Non-slip bottom. Fits left or right foot.

ITEM	SIZE	CALF CIRCUMFERENCE
19N115SM PS-19N115SM	Small/Medium	8″ - 12″ (20.3 - 30.5cm)

Over Bed Tables

STANDARD OVER BED TABLE

This over bed table is finished in a laminate for ease of cleaning. The large top section tilts and has a ledge to stop items from sliding off. The steel frame is mounted on casters. The ″H″ shaped base allows only partial wheelchair access. Table top size 15 x 32 inch (38 x 81cm). The non tilting side plate is 8 x 15 inch (20 x 38cm). The height adjusts from 28 to 46 inch (70 to 115cm). Weight capacity of top section is 10 lbs (4.5kg). Base height is 4 inches (10cm). Colour of the laminate may vary. Some assembly required.

20H001 PS-20H001

Bedroom Safety

WAVERAIL - BEDSIDE ASSIST HANDRAIL

Easy to use and comes with a convenient storage pouch. Easy assembly - For home and travel. Contoured padded handrail (contains no latex). Helps you sit up, reposition, balance, stand or transfer. Similar to other bedrails in its class. Fits all bed widths: single to king, with safety straps included. Adjustable to two heights:For standard size mattress, height from top of box spring : 15″ (38cm); For pillow-top mattress, height from top of box spring: 20.5″ (52cm). Width: 18″ (46cm); Length under mattress: 31.5″ (80cm). Maximum weight capacity: 300 lbs. (136kg).

16H289 PS-16H289

HOME STYLE ARCORAIL

Arcorail now includes an improved hand rail section offering two handle heights. The Arcorail system offers mobility, support, and convenience. It is the perfect bed accessory for getting in and out of bed and repositioning while in bed. No tools are necessary to attach Arcorail to the bed. It is lightweight, yet strong and sturdy! The height is easily adjusted and the bed can be made with the rail in place. The Arcorail handle rotates 360°. Fits standard or pillow top mattresses in king, queen, double, single and twin beds with angle iron frames.

16H400A PS-16H400A

Weight capacity: 300 lbs. (136kg)

Bedroom Accessories

BED LADDERS

A bed ladder is a simple self help device which assists a person with poor muscle tone to raise themselves up in bed.

ALL WEBBING LADDER

Made of 2″ (5cm) webbing with loops every 7½″ (19cm). Overall length is 60″ (152cm). One end loops over the bed post or around the bed leg.

16H021 PS-16H021

PARSONS BED LADDER DELUXE

Helps users sit up or reposition themselves in bed independently by providing 6 stable handholds. It loops securely over a bed post or frame and is ideal for individuals with limited strength or mobility. 2 adjustable straps make it easy to install.

PS-16H0240

SOFT LANDING MAT

PARSONS SOFT LANDING MAT

Greatly reduce the danger of injury if a patient falls out of bed. This 2″ (5cm) thick pad will soften the fall. The mat folds in the middle for easy storage and has carry handles. The front edge is tapered to allow a wheelchair to ride onto the mat and to reduce the danger of people tripping on it. Durable vinyl cover for easy cleaning. Anti-slip base. Hook and loop fasteners are provided for attaching to the bed legs. Measures 30″ x 72″ x 2″ (76 x 183 x 5cm). Weighs 7.8 lbs. (3.5kg).

15E083A PS-15E083A

A BED RAIL BUMPER PADS

Designed to reduce the risk of client injury, bumps and bruises for the bed ridden patient. These pads are made of 1″ thick flame retardant foam, covered in anti-microbial, flame retardant vinyl. They use hook & loop fastener for convenient attachment and maintenance. New full top flap design helps prevent the pad from slipping to the end of the bed rail. All sizes are 14″ (36cm) high. Sold in pairs.

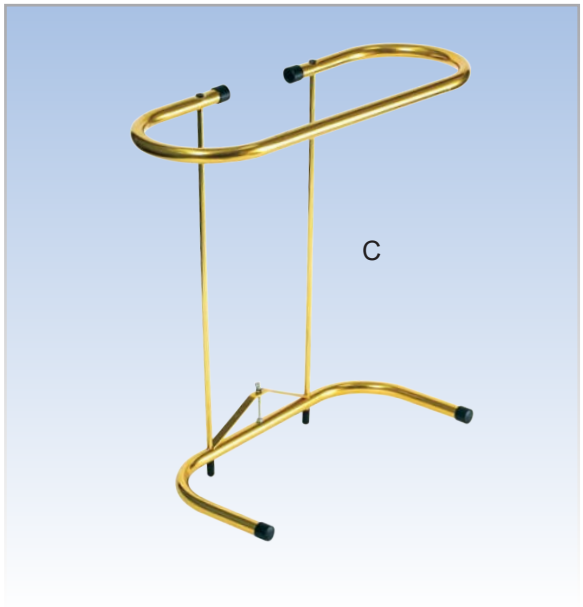
B PARSONS COMFORTRISE BED BLANKET LIFT

Our ComfortRise Blanket Lift is designed for anyone who feels discomfort from the weight or pressure of blankets on their feet. By gently lifting covers off the lower body, it removes unwanted pressure while still keeping you warm and comfortable. Sturdy, lightweight frame adjusts from 66 cm to 86.4 cm (26" to 34") for a custom fit. Can be used vertically, tucked under your mattress, or horizontally, set on top of your mattress. Includes two secure clips to keep blankets in place. Compatible with all bed sizes.

16H195 PS-16H195



C DELUXE ADJUSTABLE BLANKET SUPPORT

An attractive lightweight aluminum blanket support with a bronze finish. The support frame adjusts up to 23″ (58cm). Just insert the base between the box spring and mattress. Does not fold flat.

16H300A PS-16H300A

Stocking Aids

If you cannot reach your socks or stockings to pull them up, then this is the answer. A sock or stocking is pulled over the flexible blade, then insert your foot and pull on the straps to bring the sock over the heel and up the leg. A little talcum powder lets your heel slide more easily on some stocking aids.

STANDARD STOCKING AID

A flexible sock aid with nylon webbing straps. Curved shape holds stocking on the aid while pulling it up your leg.

16D005 PS-16D005

DELUXE RIGID SOCK AID

Helps put on socks, stockings and compression stockings without bending. Made of formed ABS plastic that holds its shape and has soft foam grip handles with braided cords which may be cut and retied to adjust the length, makes it easy to use.

16D037A PS-16D037A

FOLDING STOCKING AID

A revolutionary stocking aid with features intended to overcome the shortcomings of older models. Moulded into the blade are two hinges, which allow the side wings to fold, combining the benefits of both a flat stocking aid (easy to store) and a hard gutter shape (easy to use). With both wings folded, it is extremely easy to slide the stocking aid into the stocking. Then the wings are folded open to form a tunnel making it easy to slide the stocking over your foot. Large hook areas grip the stocking as it is being pulled up the leg. The centre panel has raised pebbled slide strips to reduce the friction of your bare heel on the plastic. A large perimeter bead protects stockings from snagging and runs. Wide web straps are easy on hands. The tip acts as a long shoehorn to reduce bending when putting your shoes on.

16D030 PS-16D030

TERRY COVERED STOCKING AID

Slits in the plastic core allow bending around the heel. Blue nylon inside reduces friction and outside terry covering holds sock or stocking firmly until it is on. Two pull straps with hand loops permit one handed application. Washable.

16D006 PS-16D006

Stocking Aids

SOCK HORSE / SOCK AID

Helps you put on your socks quickly and easily. Easiest and fastest sock tool on the market. Extra-long handle with ribbed thumb grips and ergonomic hand contour. Doesn't stretch out socks – just the top of the sock goes on the grips. Two tools in one – the bottom guides can be used as a long-handled shoehorn. Suitable for use with most types of men's and women's socks. Measures 18″ (45.7cm) long.

16D008A PS-16D008A

COMPRESSION STOCKING AID

Designed to take the struggle out of putting on compression stockings. Made of steel with smooth plastic coating. Convenient handles greatly assist in pulling the stocking up. Simply stretch the stocking over the column, insert toes and pull up with a continuous motion. Stocking Aids reduce bending and increase independence while dressing. Inside column width is 4″ (10cm).

16D029 PS-16D029

PARSONS "EXTRA" COMPRESSION STOCKING AID

All the benefits of our 16D029 Compression Stocking Aid plus: an extra 3″ (7.6cm) handle height for an overall height of 17″ (43.2cm) to further reduce the bending required to pull up your hosiery. An extra 10° angle of inside column to further assist the placing of your foot into the stocking. The inside column width has been increased to 5″ (12.7cm) to for users with wider calves.

16D027 PS-16D027

HEAVY DUTY LEG LIFT STRAP

A simple and practical way to lift a leg onto a bed or a wheelchair footrest. A 35″ (89cm) long strap with a loop at each end. One loop is placed over the wrist and the other end is placed over the foot or cast. The centre section has a rigid aluminum slat inside. Made of 2″ (5cm) wide webbing for comfort. 6½″ (16.5cm) loops. Latex free.

16D045 PS-16D045

BENDABLE LEG LIFT STRAP

This 42″ (105cm) leg lifter is made of heavy duty reinforced nylon webbing with an aluminum rod to help place the loop over the foot. The loop bends to accommodate any size cast or foot. Great for patients recovering from surgery, back problems or weak hip flexors.

16D039A PS-16D039A

ELASTIC SHOE LACES

These elastic laces allow shoes to be pre-tied and then slipped on or off easily. They also allow tired feet to swell without restricting circulation. 2 pair / pkg. Recognized by the Canadian Association of Occupational Therapists.

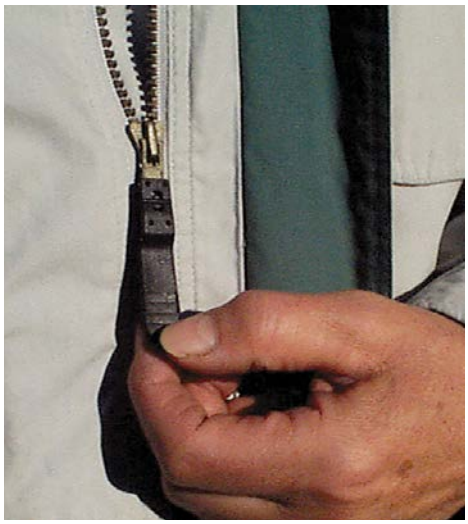
Zipper Pulls

ZIPPER PULL TABS

Large plastic snap on zipper tabs make pulling zippers easier. 6 /pkg.

16D014 PS-16D014



COMFORT GRIP ZIPPER PULL

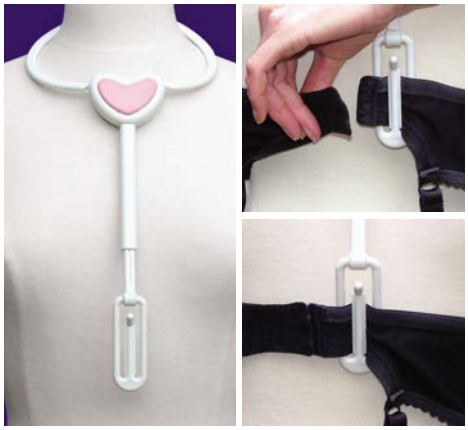
Enables people with poor dexterity to hook and pull zippers independently. Finger bump grip provides extra gripping ability for weak hands.

16D011 PS-16D011

BUCKINGHAM BRA-ANGEL

Women of all ages with upper limb restrictions may find it difficult to put on a brassiere independently. The simple-to-use Bra-Angel holds one end of the brassiere securely while the other end is brought around the body. Especially useful for those with the use of only one arm. Works with most brassiere types and is easily adjusted for size. Its telescopic action also allows it to be shortened for storage and travelling. Latex free. Patents pending.

16D061A PS-16D061A



Bathroom

A LOOFAH BACK BRUSH

This back scrubber is similar to 16B121 but has a natural loofah pad instead of bristles. Loofah pad can be removed and hand held. Length 16½″ (42cm).

16B120 PS-16B120

B SCRUB BRUSH

A natural bristle back scrub brush with wooden handle. Brush may be removed from the handle and used as a massage brush or a hand held scrub brush. Length 16.5″ (42cm).

16B121 PS-16B121

C PARSONS LONG HANDLED SPONGE

A colourful rectangular sponge mounted on a lightweight epoxy coated aluminum handle. Vinyl hand grip reduces slipping from wet hands. Length 21″ (53cm).

16B122 PS-16B122

D PLASTIC HANDLED BATH SPONGE

A double sided, double textured, blue sponge. Long white curved handle. Large hanging hole also serves as a convenient hand grip. Length 19″ (48cm).

16B123 PS-16B123

E PARSONS DELUXE BATH SPONGE

This deluxe sponge has the same helpful angle as 16B122 combined with a clear acrylic rod for reduced weight. Soft foam handle that retains its grip even when wet and soapy. Length is 20″ (51cm). Recognized by the Canadian Association of Occupational Therapists.

16B160 PS-16B160

F EXTRA LONG HANDLED SPONGE

Take the stretch and bend out of household cleaning with this extra long handled sponge. The sponge is mounted on a stiff yet lightweight white aluminum shaft. 30″ (76cm) long.

16B125 PS-16B125

G PARSONS WASH MITT, ELASTIC CUFF

Non allergenic white terry cloth wash mitt with elastic wrist and a soap pocket. Loop for hanging or can be pulled on with teeth for one handed washing. Fits either hand.

16G010 PS-16G010

H PARSONS BACK SCRUBBER

Multi-layered pad of white non-allergenic terry cloth with hand loops on each end. Makes back scrubbing easy. 4″ x 15″ (10 x 38cm) with two 15″ (38cm) long straps.

16G012 PS-16G012

FOOT BRUSH

If you have trouble reaching your feet during bathing a foot brush is very helpful. The overall length is 25″ (64cm), which makes it easy to scrub your feet. The replaceable tip is good for washing or drying between the toes. Ideal for diabetics whose feet are particularly susceptible to ulceration and infection because of a loss of sensation. Lightweight, 8oz (230 grams) with a slight curve to the handle to make it easy to use.

16G017A PS-16G017A

REPLACEMENT SPONGE TIP

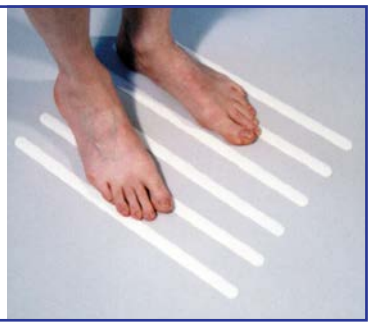
Snap-in sponge for use with shown above.

16G017-1 PS-16G0171

NO-SLIP SAFETY STRIPS

These textured strips are excellent to prevent you from slipping in either bare feet or shoes. Use them in the tub or shower, around a pool or on wheelchair foot plates. White, 6 strips per pkg. Size ¾″ x 17″ (2 x 43cm). No Latex.

16B085 PS-16B085



RUBBER BATH MAT

A basic item for bathroom safety is a slip resistant bath mat. This full length mat provides safety for the whole length of the tub plus added comfort for those who like to lie down and take a bath. The colour is off white. Size: 16″ x 41″ (41 x 104cm). No latex.

16B084 PS-16B084

ANTI SLIP TUB STRIPS

Available on a roll, the white self adhesive strips designed for wet areas can be applied to bathtubs, shower trays, floors and any surface that is frequently wet. It is used to provide grip, particularly for bare feet and where safety is an issue in the bathroom and change rooms where floors and surfaces are slippery. These easy to apply self adhesive strips provide a long lasting anti-slip solution in homes, care homes and public and clinical environments. Individual strips on the roll measure 8 in (20 cm) long x 0.75 in (1.9 cm) wide.

16B087 PS-16B087

Bath Cushion

INFLATABLE BATH CUSHION

Here is a great little luxury item for the bath tub. Great for young and old alike. This pillow has a bonded terry cloth cover for added comfort. Inflate it to your personal preference of firmness. Has a central indentation to help cradle your head. It has four suction cups to stick to the wall or tub. Size 16″ wide x 14″ x 3″ (41 x 36 x 8cm).

LADY'S EXTENSION RAZOR HOLDER

Lady's extension razor holder is designed to hold either an electric or a safety razor. This handy aid will assist a person to shave their legs if they have a hard time reaching down. Useful during pregnancy, after a hip operation, etc. May be useful for extending the reach of other tools as well, such as dusters, paint brushes, etc. Length: 20″ (51cm).

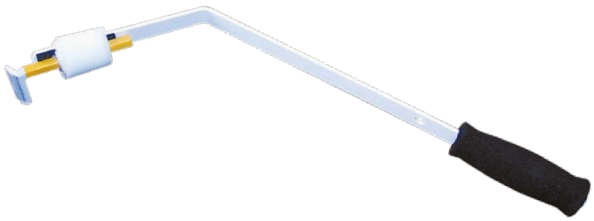
16G022A PS-16G022A

FOAM GRIP EXTENSION RAZOR HOLDER

This product offers the same benefits as above with the added benefit of a soft foam grip that retains its grip even when wet. Length: 20″ (51cm).

16G022-1 PS-16G0221

* Note: Razors not included



A PARSONS NAIL CARE SET

A larger nail clipper with emery boards to assist those who may have difficulty with the smaller nail clipper. The emery board is held in place with a spring clip and non-slip pads hold the Lexan base in place to facilitate one hand usage. Two emery boards are included with each set. Base measures 4″ x 2¾″ (10 x 7cm).

16G015-1 PS-16G0151

B NAIL CLIPPER AND SANDER

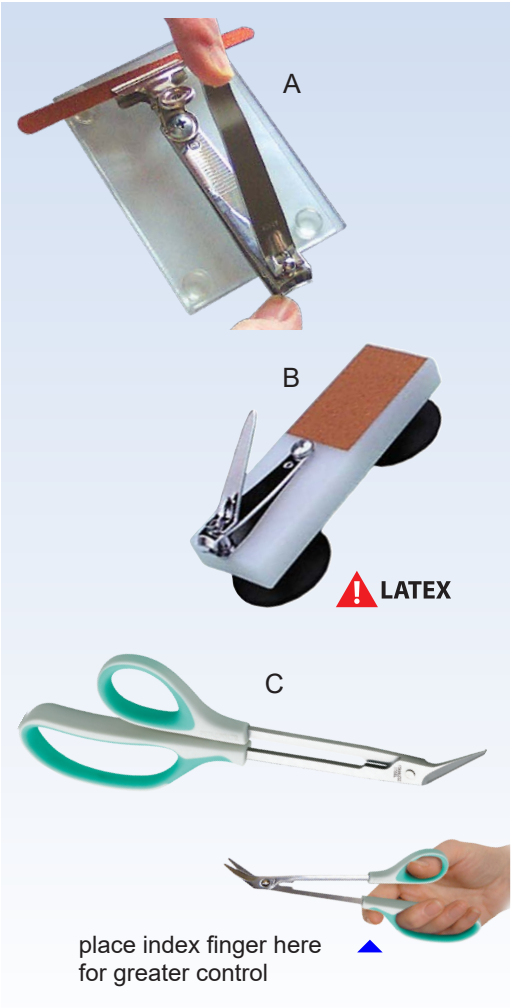
Ideal for individuals with limited hand strength or coordination difficulties, this device combines a nail clipper and rectangular emery board. Two suction cups ensure the unit stays securely in place during use.

16G015 PS-16G015

C LONG REACH TOE NAIL SCISSORS

Long Reach Toe Nail Scissors have been ergonomically designed to assist those who have difficulty in bending down to cut their toe nails. The cutting head is angled at 45 degrees to give a more comfortable cutting position, and one blade is slightly serrated to prevent slipping. The long loop handle enables the whole strength of the hand to be used. Overall length 8″ (20cm).

16G014A PS-16G014A



Beauty Line

The Beauty line of accessories are carefully balanced to give full action power with minimum stress on joints and muscles. They are also manufactured in a single, very light material, polypropylene, which makes the accessories easy to recycle when they are worn out. Other products may be balanced when dry, but become heavy and unbalanced when they absorb water. That's why the Beauty sponges have been designed with a special material which washes effectively without absorbing water. They can be machine-washed at 140°F (60°C). Handles are ergonomically designed to lie against the whole hand. The rubber-like surface prevents the accessory from slipping out of the hand. The overall length of short handled products is 11½″ (29.3cm), while the long handled length is 14¼″ (36.4cm). The Beauty Wash Cloths have detachable washcloths which makes them easy to clean.

Adjustable Shower Seats

Our adjustable shower seats provide a stable and comfortable seating option for safer bathing. Designed for convenience, they feature a durable, easy-to-clean surface with drainage holes to prevent water buildup. Sturdy legs with non-slip rubber feet enhance stability, while the adjustable height accommodates different user needs.

A PARSONS SHOWER SEAT

The Parsons Shower Seat offers a sturdy and non-slip design, while the easy-to-clean surface and drainage holes help prevent water buildup. The compact design makes it a great option for various bathroom spaces.

1460 PS-1460 No Handle
PS-1460H Handle Included

- Adjustable seat height: 14” to 20” (35 to 50cm)
- Max. weight capacity: 250 lbs (113.4kg)

B PARSONS SHOWER SEAT WITH BACKREST AND RED HANDLE

This version of the Parsons Shower Seat includes a supportive backrest and a red safety handle for added stability and ease of use. The ergonomic design provides extra comfort, while the sturdy, non-slip construction enhances safety during bathing.

1465H PS-1465H

- Adjustable seat height: 15” to 21” (38 to 53.3cm)
- Max. weight capacity: 250 lbs (113.4kg)

C PARSONS RED HANDLE

Handle inner width: 6.5″ (16.3cm). Plastic. Red only. Can be added to 1460 and 1465H shower seats.

1463 PS-1463

D PARSONS TRANSFER BENCH WITH BACKREST

This modular transfer bench is designed to provide a safe and stable way to enter and exit the bathtub. The removable transfer seat allows for easy positioning and enables the shower curtain or door to close when not in use. With adjustable height settings and a sturdy, non-slip design, this bench offers both comfort and security for users with limited mobility.

1475 PS-1475

- Adjustable seat height: 15″ to 21″ (38 to 53.3cm)
- Max. weight capacity: 250 lbs (113.4kg)

REMOVABLE SEAT
ALLOWS SHOWER CURTAIN
OR DOOR TO CLOSE

SWIVEL SHOWER SEAT

This bath stool is designed to provide greater mobility and convenience while bathing. The rotating seat allows for easy movement, while the height-adjustable aluminum legs with suction tips ensure stability. The round plastic seat features five drainage holes for quick drying and easy cleaning, and the soft seat pad enhances comfort while turning.

16B104A PS-16B104A

- Adjustable height: 18" - 25" (45.7 - 63.5 cm)
- Maximum weight capacity: 275 lbs (125 kg)

Hair Wash Accessories

COMFORT HAIR WASH TRAY

This plastic tray mounts on the shoulders and is held in place via a 35″ (89cm) strap which hangs in front of the user for them to hold. It can be used in any home sink, bathroom or kitchen, or with any shampoo basin. The 5″ (13cm) wide curved neck rest provides a comfortable support. Water poured on the hair drains into the sink or basin. The tray is 17¾″ (45cm) long x 13″ (33cm) wide with 1½″ (4cm) high sides.

16B096A PS-16B096A

COMFORT WASH - INFLATABLE SHAMPOO BASIN

Inflatable basin makes it possible to wash a person's hair without removing them from bed. The patient's neck and shoulders are cushioned in the inflatable rings. Handy for home or institutional use. Inflates by mouth or air pump. Heavy duty vinyl. Inflates to 28″ wide x 24″ long x 6″ deep (71 x 61 x 15cm). Includes 4' (122cm) drain hose, plug and instructions.

16B098A PS-16B098A

BATH BOARDS

MERMAID BATH BOARD WITH HANDLE

The "Mermaid" Bath Board adjusts easily from 17¾″ to 28″ (45 to 71cm) to fit most bathtubs. It has a wide comfortable contoured seating area which makes it easier and safer to turn and move on the board while getting in and out of the tub. The textured surface is slip resistant and there are drain holes to help keep water off the seating area. There is a built in soap dish. The total plastic construction is corrosion free and easily cleaned. Anti-slip rubber pads improve the safety and protect the tub surface. Comes complete with safety handle. Adjusts and assembles easily, no tools required, instructions included.
Weight capacity: 250 lbs. (114kg).
Size 31″ x 14″ x 1½″ (78 x 36 x 4cm).

16B067A PS-16B067A

Shower Heads

SHOWER HEAD

Hand held shower head with push button control, wall bracket and mounting screws. Extra long 84″ (2.1m) flex hose allows showering or hair washing from a seated position. The hose screws into existing shower head. Includes diverter valve to allow use of original shower head.

16B005A PS-16B005A

DIVERTER VALVE, WHITE

Non-corrosive construction, diverts water from the shower head to a shower hose. Replacement diverter for 16B005A above.

16B105A PS-16B105A

ADJUSTABLE WALL BAR SHOWER SET

This shower head with its extra long 84″ (2.1m) flex hose is especially designed for use when the bather is sitting on a shower chair or is reclining in the tub. The diverter valve allows the water flow to be directed to either the original shower head for taking standing showers, or to the hose for seated showers. Water temperature may be tested before directing the spray towards the bather. The on/off switch on the shower head allows water flow to be safely turned off from a seated position. The wall bar bracket will instantly adjust the shower height at the push of a button. A convenient soap dish is provided. Comes in attractive retail packaging.

16B008 PS-16B008

SUCTION TUB BARS

Enter and exit a wet, slippery tub safely and with confidence. These tub bars attach with unique dual suction cups that are easy to attach, remove or relocate by using the flip-up release tabs. A red/green indicator signals when the adherence of the bar needs to be reset for your greater safety. Overall width is 3¾″ (9.5cm). Opening is 2″ (5cm) high.

These one-piece moulded raised toilet seats with antibacterial protection are designed to allow total immersion for cleaning. Available in three seat heights, they are easily fitted to a toilet in seconds. Removal is equally simple. The gently contoured seats are shaped to distribute a user's weight over a great area that will not only help to hold the occupant in position, but will also be durable enough to cope with the heaviest user. A wide frontal opening allows easy access for personal cleaning. Weight capacity: 420 lbs. (190kg).

Personal Hygiene

MALE URINAL WITH COVER

Open handle provides easy grip, hangs on bed rail. ″Urinal″ is imprinted on cap to avoid other uses. Translucent material permits visual measurement of contents in ounces or cubic centimeters. Capacity: 32oz (1000cc). 10½″ x 4″ (27 x 10cm). Sterilizable, but NOT autoclavable.

16B020 PS-16B020

BED PAN

Stackable design allows space saving storage. Large capacity and contoured for comfort. 15″ long x 12″ wide (38 x 30cm). 1.5 litre capacity. Weight capacity: 200 lbs. (91kg). Sterilizable, but NOT autoclavable.

16B022 PS-16B022

E-Z TURN II DISC

PS-14A600A

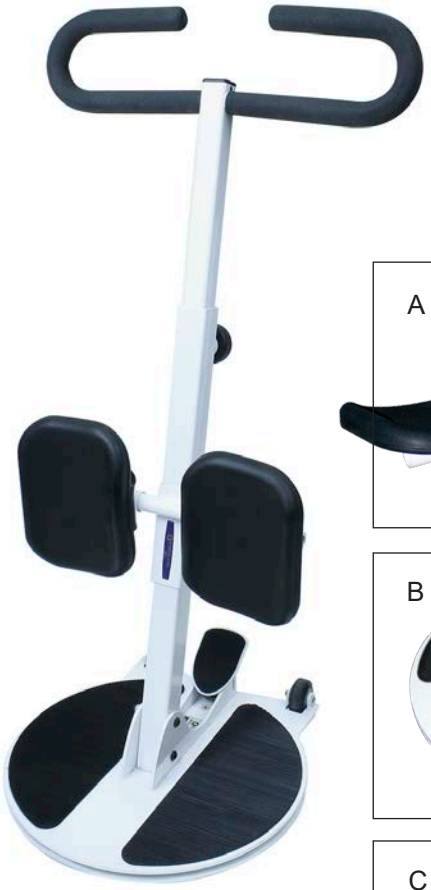
Safe and easy patient transfer from one seated position to another with the E-Z Turn II Disc. A valuable aid to caregivers in patient transfer situations, reducing the physical strain resulting from repeated bending and lifting. A stable support-aid reducing the risk of the patient falling. Patient transfer is carried out in a safe and dignified manner.

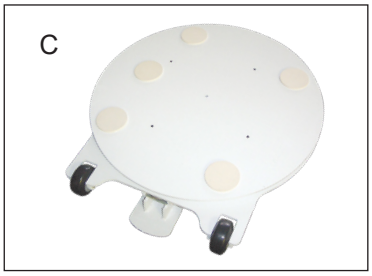
The brakes lock on and release, no need for the care giver to keep a foot on the brake. Now both feet are kept firmly on the floor during transfers. The knee pads pivot to better fit each individual patient and are adjustable to 3 settings for width between the knees. Upper and lower hand grips are padded for a more secure and comfortable grip. The foot plate is reinforced for increased durability.

The E-Z Turn II is positioned in front of the person to be transferred. Built in wheels make the E-Z Turn II portable and maneuverable. The vertical support bar is adjustable from 34½″ to 51″ (87.6 to 129.5cm) allowing correct user height. The helper locks the brake while holding securely onto the upper handle bar. With knees centrally positioned on the supporting knee pads, the patient grips the lower handle bar and raises himself to an upright position. The E-Z Turn II provides a stable upright support aid for the user to hold. The caregiver is able to transfer the user to a new position with a minimum of exertion. Maximum weight capacity: 300 lbs. (136kg). Unit weighs 46 lbs. (20.4kg).

Replacement components:

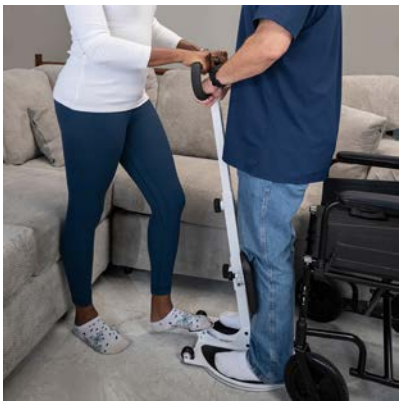
A	14A600-1	PS-14A6001	Base Assembly
B	14A600-2	PS-14A6002	Swivel Pad Assembly
C	14A600-3	PS-14A6003	Anti-Slip Pad (Set of 5)
	14A600-4	PS-14A6004	Complete Brake Assembly (not shown)





- Reduce caregiver injuries
- Safe and secure patient transfer
- Reduces risk of patient falling

FOR INTERIOR USE ONLY



Transfer Discs

PARSONS SOFT TOP TRANSFER DISCS

Parsons ADL's own "Soft Top" Transfer Discs incorporate a 1/8" (0.3cm) soft but durable neoprene, non slip pad top and bottom to ensure user comfort in either socks or bare feet. The rotating action is similar to a "Lazy Susan" but uses graphite pads instead of ball bearings. Weight capacity is approx. 300 lbs. (137kg).

14A067 PS-14A067 12" Parsons Soft Top Transfer Disc
14A069 PS-14A069 15" Parsons Soft Top Transfer Disc

TRANSFER DISC

An ideal way to transfer anybody, at home or in an institution. Position the disc in front of the person to be transferred. Raise them up, rotate them on the disc, then lower them. The disc works like a 'Lazy Susan'. The disc has a very low profile with a non slip surface top and bottom for safety. The disc rotates on graphite pads so there are no ball bearings to get gritty and prevent free rotation. These discs are designed not to rotate too freely as this would be dangerous and would startle anyone, especially persons with a cognitive disability. Weight capacity: 330 lbs. (150kg).

14A061-1 PS-14A0611 Transfer Disc, 15" (38cm) diameter

Transfer Cushions

SOFT TRANSFER SWIVEL CUSHION

A soft transfer device that conforms to the shape of the seat and swivels with ease. The 17″ (43cm) diameter, 1/2″ (13mm) thick cushion provides an excellent seating alternative when getting in and out of an automobile is difficult due to back pain or sore hips. Your back remains straight while you simply swivel into position. The top surface is covered with breathable cotton for comfort. The bottom is made of an EPE waterproof material. Very lightweight and portable for easy transporting. Weight bearing load up to 300 lbs. (140kg).

14A064A PS-14A064A

Transfer Sling

4 HANDED TRANSFER SLING

A canvas sling, 36″ x 36″ (91 x 91cm) with heavy webbing handles sewn into each corner. Allows two care givers to move a patient. Also useful for emergency patient evacuation. Weight capacity: 200 lbs. (91kg).

14A091 PS-14A091

Transfer Belts

TRANSFER BELTS

A soft webbing belt 2″ wide by 60″ (5 x 140cm) long with a metal loop at one end and hook & loop at the other. Useful in assisting with transfers. Available in black seat belt webbing or white natural cotton webbing with red and blue stripes.

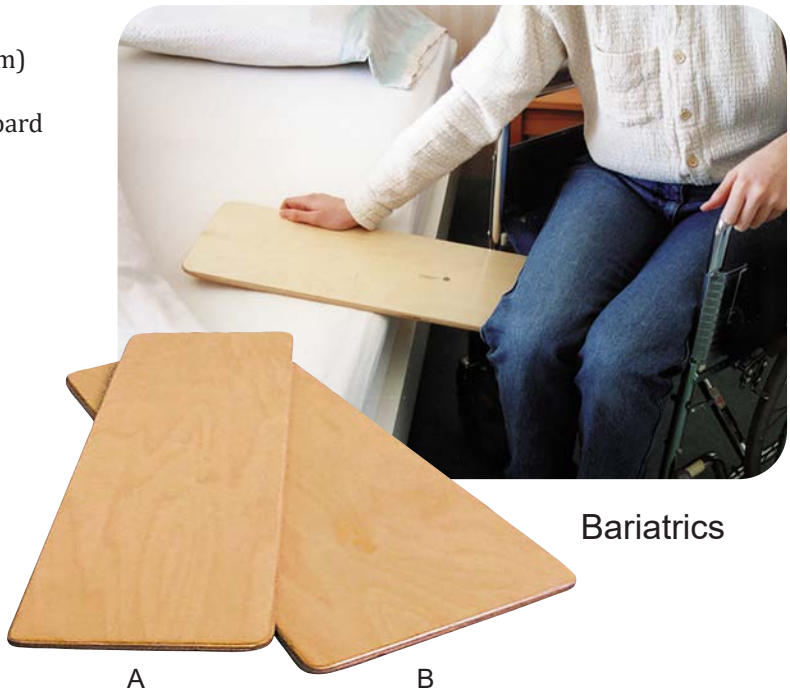
Transfer Boards

BARIATRIC TRANSFER BOARD

These transfer boards are constructed of ¾″ (19mm) thick baltic birch plywood for extra weight bearing capacity. The ends are tapered and the complete board is coated in a smooth clear and durable finish.

A	16C055	PS-16C055	9½" x 29" (24 x 74cm) Supports up to 500 lbs. (227kg)
B	16C056	PS-16C056	12" x 29" (30 x 74cm) Supports up to 700 lbs. (318kg)



Bariatrics

TRANSFER BOARDS

Useful for transferring from wheelchair to bed, car seat, bath board etc. Made of multi-laminated birch plywood with a smooth lacquer finish. Ends are tapered and edges are rounded for easily sliding on and off. Thickness: 1/2″ (13mm).

16C045	PS-16C045	9½" x 24" (24 x 61cm)
16C046	PS-16C046	9½" x 28" (24 x 71cm)

TRANSFER BOARDS WITH HAND HOLES

Similar to the boards above, but with hand holes at each end for ease of carrying and transferring patients. Thickness: 1/2″ (13mm).

16C047	PS-16C047	9½" x 24" (24 x 61cm)
16C048	PS-16C048	9½" x 28" (24 x 71cm)

TRANSFER BOARDS WITH NOTCHES

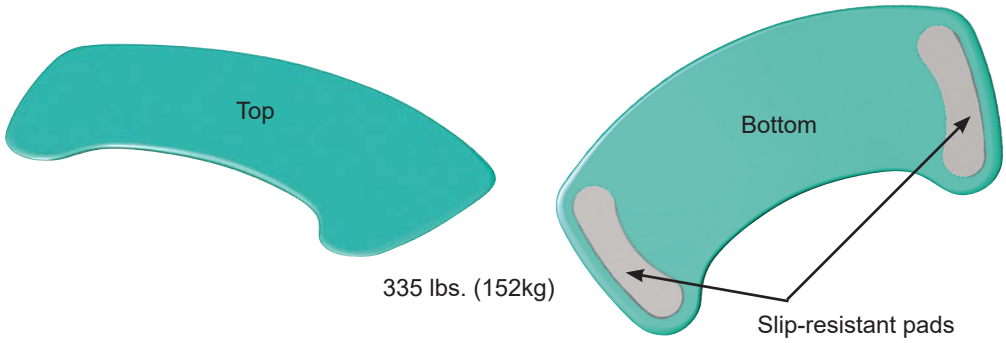
With a hand hole for easy carrying and transferring, this transfer board also has notches cut out of the sides for securing the board to the side arm post of a wheelchair. Made of multi-laminated birch plywood with tapered ends. Thickness: 1/2″ (13mm).

16C052	PS-16C052	9½" x 24" (24 x 61cm)
16C053	PS-16C053	9½" x 28" (24 x 71cm)

CURVED TRANSFER BOARD

Tapered ends and smooth surface provide easy sliding onto and off of board. Curved board allows varied positioning to accommodate a variety of transfer situations. Made from solid, reinforced plastic that is waterproof and resists chipping, shattering, and splintering. Slip-resistant pads at each end increase stability during transfer. Supports up to 335 lbs. (152kg). Board is 28″ long x 15″ wide (70 x 37cm), tapering to 10¼″ (26cm) wide at the middle.

AA8835 PS-AA8835



Glide Sheets

GLIDE LOCK SHEET

Glide and Lock sheets are very useful positioning devices. They move in one direction but not the other. The bottom surface is covered with an anti-slip material. Useful to adjust the position of a person who is chronically slumping while seated. They are cushioned for comfort and the top surface is upholstered with Bucktex, a breathable material, to reduce body heat build up. Size: 16″ x 19″ (41 x 48cm). Weight capacity: 250 lbs. 114kg

14A088-1 PS-14A0881

GLIDE SHEETS

Glide sheets are handy tools to reduce the strain of moving patients. Both the patient and the care giver benefit. The outer cover is Bucktex, a breathable material. The inner surface is a slippery nylon. The use of these sheets reduces the effects of friction on the skin and torsion on the spine. The patients can slide sideways as well as rotate while seated on a glide cushion. Three sizes available for a variety of transfer needs. Luke warm machine washable, hang to dry.

14A082	PS-14A082	Glide Sheet, 16" x 20" (41 x 51cm)
14A083	PS-14A083	Glide Sheet, 20" x 30" (51 x 76cm)
14A084	PS-14A084	Glide Sheet, 24" x 40" (61 x 102cm)

PARSONS RED NYLON SLIDE SHEET

Constructed from lightweight but durable coated nylon, this sheet allows an easy glide between two surfaces. Reduces friction for the patient and makes transfers and positioning easier for the caregiver. Size: 30″ x 62″ (76 x 157.5cm).

14A086 PS-14A086

StandTall Walkers

BURE™ STANDTALL WALKERS

Manufactured in Sweden utilizing a user-friendly design that does not confine the patient. This walker is only 31″ (79cm) wide, able to go through most home doorways. The handles are ergonomically designed to be adjustable in every direction for optimum patient adaptation. The StandTall Walker has anatomical arm cushions that are angled downwards to provide relief for the shoulders, arms and neck and shift the focus to larger muscles in the legs and chest. This improves stability and makes the walker easier to steer. The 2 front casters can lock into place while the two back casters can be locked to prevent any swivelling. Overall dimensions: Armrest internal range 12″ to 18″ (30 to 45cm), 32″ (79cm) long. Height range 36″ to 53″ (90 to 132cm). Weight: approx. 55 lbs. (22kg). Weight Capacity: 330 lbs. (150kg).

16C012-1R PS-16C0121R Right

PARSONS MOULDED TRAY, TRANSPARENT

These moulded transparent trays have smooth edges and rounded corners to protect tender skin. There are two recessed wells at the front corners as well as a pencil trough across the front. The transparent material makes it easy for the person to see the front corners of the chair through the tray while the chair is in motion. Lightweight and strong. Attaches to 23″ (58.5cm) chairs with our adjustable blind-fastening slide on system. Size: 24″ x 21″ (61 x 53cm).

16C042-1 PS-16C0421

Adjustable blind-fastening slide on system

SLIDE ON TRAY SYSTEM

The Parsons ADL system for fixing trays onto wheelchairs is a big improvement over the hook & loop strap system. The tray slides over the arms from the front of the chair. Once on, it is secure, even if someone accidentally leans on the front of the tray. Our slide on brackets are designed to allow 2″ (5cm) of adjustment in width to accommodate variations in chair widths. Factory configured to fit a standard wheelchair.

SLIDE ON BRACKET SET

Build your own tray or convert a hook & loop strap tray to a slide on model. The screws now mount flush to help protect wheelchair armrest pads.

16C500
PS-16C500

BACKSTRAP

Prevents wheelchair trays from being accidentally pushed off.

Wheelchair Accessories

ADJUSTABLE DRINK HOLDER

This is without a doubt the best drink holder we have ever seen. It folds flat when not needed, flips down for use. Has adjustable drink holders to accommodate everything from small cans to 32 oz. bottles. The mounting system fits ¾″ to 1″ (2 to 2.5cm) round tubes, plus adjusts for different angles on the tube. Size: 3¾″ W x 4″ H (9.5 x 10cm).

16C038 PS-16C038

CLAMP - ON CUP HOLDER

A sturdy plastic cup holder which accommodates a coffee mug with handle. It attaches easily to most wheelchairs. Two attachment clips to fit 7/8″ and 1″ (22 and 25mm) round tubes are included. Once the clip is installed the cup holder alone can be easily removed. No more accidentally broken cup holders from hitting door posts etc. No tools required. Cup not included.

16C035 PS-16C035

PUSH GLOVES, BICYCLE STYLE

These bicycle style push gloves have a sporty appearance. Just the thing to go with a new sports chair. The open mesh back allows good ventilation. The palms have a padded area for durability and a no slip grip. The no slip feature makes them useful to wheelchair sports enthusiasts and for people with a weak grasp. They help keep hands clean while travelling outdoors, yet leave fingers bare for touching or picking things up. Hook & loop wrist straps for easy on/off. Sold in pairs. Measurements are across inside of palm. Latex free.

A PARSONS OXYGEN TANK HOLDER

This nylon oxygen tank holder is both strong and lightweight. The mounting straps are adjustable to fit most wheelchairs and are long enough to mount the tank off centre to avoid contacting the patient's head or back. Top straps fit over the push handles, bottom straps over the anti tip bars. Holds D & E or other 4″ (10cm) dia. tanks. Black, 4″ (10cm) dia., adjusts to either 20″ or 26″ (51 or 66cm) length. Patented.

16C204A PS-16C204A

B INHALE8 DELUXE WHEELCHAIR CYLINDER BAG

The Inhale8 Wheelchair Cylinder Bag is designed for easy adjustment to fit a D or E cylinder. It features a convenient front pocket for your essentials and is made from durable fabric for long-lasting use.

H8-5805

MEDICAL SHEEPSKIN

Natural genuine sheepskins have proven to offer soothing relief and comfort for anyone who is bedridden or confined to a wheelchair. Use as an underlay beneath a sheet or place directly under the body, either on a bed or a chair. Lying on a sheep skin will relieve pressure points and increase circulation thereby reducing the development of bedsores. These medical sheepskins come from fine fleece Merino sheep in a natural animal shape, golden beige in colour. Medical sheepskins are hand selected, average 7-8 sq. ft. (0.7 sq. m) in size. The hides are specially chrome tanned to be fully washable. With proper care, these sheepskins will keep the patient comfortable for many years. Hand-washable at low temperature. Air-dry.

18C220A PS-18C220A

PARSONS FLEECE ARMRESTS WITH POUCH

Add not only fleecy comfort for your arms but a storage space to boot! Pocket measures approximately 8″ (20cm) across and is 6″ (15cm) deep. Sold in pairs.

16C196 PS-16C196

WHEELCHAIR RAIN CAPE

A generous size rain cape to protect the person seated in a wheelchair and the wheelchair as well. Has a hook & loop closure that can be opened and closed from the inside as well as the outside, also has a double thickness hood for warmth. 100% nylon. Machine washable. One size fits all.

16C300A PS-16C300A

CONTOURED SHAWL

Polar fleece shawl is as easy to put on as a blanket around the shoulders. The high collar can be turned up to protect the neck and ears when transferring to the car, without messing hair. The overlapping front is snug and cozy. Hook & loop fastener at neck keeps draft from front of neck. 27’ long, 47″ wide (69 x 120cm). One size fits most.

16C301A PS-16C301A

WHEELCHAIR POUCHES

WHEELCHAIR ARM POUCH

An arm pouch made of vinyl, designed to fit over the armrest of a wheelchair with desk arms. Also fits on a walker. Size: 8″ x 9″ (20 x 23cm).

SOLID SEAT INSERTS

Designed to enhance wheelchair seat rigidity, preventing sinking and alleviating pinching. These inserts are made of ¼″ birch plywood for strength. All edges and corners are radiused to prevent damage to cushion covers. Designed to fit cushions such as Jay and Combi as well as our own. These inserts will help to promote better posture and therefore are more comfortable.

Wheelchair Positioning Belts

All of our positioning belts are made of 2" (5cm) wide, black seat belt webbing.

Styles of belts available:

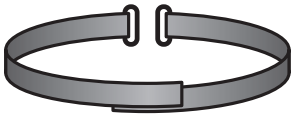
- One piece belt which simply loops around the wheelchair,
- Two piece belt with grommets on the ends,
- Two piece belt with metal loops on the ends.

Grommet ends are secured by removing a screw or bolt on the back of the chair and refastening it back through the grommet. Metal loop ends are secured to the wheelchair by passing the webbing around the frame and back through the metal loop.

one piece

two piece with grommets

two piece with metal loops



Four types of belt are available:

A Hook & loop closure, the lightest weight belt for the user.

B Side release plastic buckle closure, useful when the auto buckle would be too heavy, such as with children.

C Automotive-style push button buckle closure, the most secure.

D Automotive-style push button buckle closure, with tri-glide to secure excess belt length.

Weights

PARSONS CUFF WEIGHTS

Wrist and ankle weight cuffs are an excellent means of applying resistance to the upper and lower extremities. They are covered in soft expanded vinyl, sewn in vertical pockets to provide flexibility and comfort when wrapped around the wrist or ankle. Extra long hook & loop straps make it easy to put the weight on and off, yet ensure a snug fit. These weights are filled with tiny steel shot which is sealed in poly pouches to prevent any leakage under even the heaviest use. A brass grommet provides a convenient means of hanging the weights up for storage. Colour coded for quick identification in a busy clinic. Sold individually.

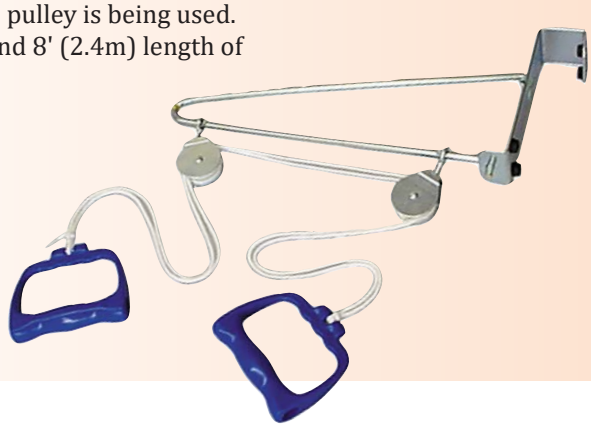
15W202	PS-15W202	White: 2 lbs. (0.9kg)

EXERCISE

RECIPROCATING PULLEY EXERCISER

An inexpensive range of motion exerciser. Easily mounted onto door tops and has rubber feet to protect door surfaces when pulley is being used. Two comfortable handles and 8' (2.4m) length of braided rope.

15E049 PS-15E049



THERAPUTY

Therapy putty is offered in five colors, each with a unique consistency, ranging from extra soft to help strengthen a weaker grasp, to firm for developing a stronger-than-normal grasp. The putty is clean and easy to use, however, in institutional settings it is advisable to use a glove over scar tissue to prevent cross infection. Complete with hand exercise chart. Latex free. NOT microwavable.

Exercise Aids

PEDAL EXERCISER

Chrome plated steel tubular frame. Can be used on the floor for exercising your legs or on the table for exercising your arms and upper body. Plastic pedals and foot strap. Sturdy rubber feet prevent exerciser from slipping. The exerciser has adjustable resistance. Use it to increase strength and improve coordination and circulation.

15E051A PS-15E051A

ACU SHIATSU MASSAGE BAR

Ideal for self-management of soft tissue syndromes. The Acu Shiatsu Massage Bar treats trigger points associated with myofascial pain syndrome. The curved bar has several knobs that are interchangeable and can be used for varying shiatsu intensity levels. Little force is needed to apply pressure to trigger points. You can use the Acu Shiatsu Massage Bar in a standing, sitting or lying position. Comes with instruction booklet. Colour: purple. Size 23″ long x ¾″ diameter.

15M061A PS-15M061A

Slings

A CVA SLING - UNIVERSAL SIZE

Two large cuffs of quilted cloth, with an adjustable neck strap with padded area constructed of Borg fleece provides maximum comfort for persons who have experienced a cerebral vascular accident. Easy to apply or remove without assistance. Fits either arm. Washable. Adjustable in length from 29″ to 51″ (73.7 to 129.5cm).

14S004 PS-14S004

B PARSONS UNIVERSAL SOFT SLING

Manufactured of soft and durable Bucktex® to ensure breathable comfort. Fits either arm and fully adjustable to fit most wearers. Strap adjusts from 33″ to 38″ (84 to 96.5cm) in length.

Hot & Cold Packs

VITA CARE GEL PACKS

Reusable cold and hot compress always stays flexible. These economical gel packs are non-toxic, microwavable and made with extra strong bags. For cold compress place in your freezer for 1 hour, then apply to the area you are treating over a dry towel. For hot compress, boil a pot of water, remove from heat and place compress pack into hot water for 5-10 minutes. For microwave use, place in a container and cover pack completely with water, heat at full power for 1 minute. Wrap pack in a towel or a fleece cover and apply to area you are treating. Available in three sizes.

Our Sales Team

Johnny Hsuen
Product Specialist
(Ontario East, Ontario North)

I have spent 10 years with KEGO, gaining valuable experience in the industry and am happy to serve the community and customers by addressing all of their healthcare needs. Throughout my career, I have provided valuable insights and business ideas to create situations that help everyone involved. With over 15 years of clinical experience, I am committed to delivering high-quality care and expertise to ensure the best possible results for those I serve.

Jessica Enea
Product Specialist
(Quebec, Atlantic Canada)

I am a trained respiratory therapist with over 15 years of experience in the field. My career has allowed me to develop a human-centred approach focused on listening, customer satisfaction, and finding tailored solutions. I have excellent interpersonal skills and am passionate about making a real difference for healthcare professionals and their patients.

Leah Friedrich, RPSGT
Diagnostic Sales Coordinator/International
(Ontario, Western Canada)

I have been with KEGO for over 2 years and bring more than 15 years of experience in the medical industry. As a registered polysomnographic technologist (RPSGT) since 2009, I have gained extensive knowledge in the field. I am passionate about working with the medical community, helping them obtain the necessary equipment to perform their jobs effectively and enhance patient care.

Josh Brenneman
Product Specialist
(Ontario West, Saskatchewan, Manitoba)

I joined the KEGO sales team in 2018 and have had the opportunity to cover various territories, ranging from Western Canada to Southwestern Ontario over the years. I thoroughly enjoy supporting clinical teams and identifying opportunities for medical businesses to grow while ensuring patient care remains uncompromised. I am passionate about connecting with customers and helping them succeed to the fullest.
